How to join your family on KinNook

Your family's private website. Takes about 5 minutes. No password to remember.

KinNook
mykinnook.com

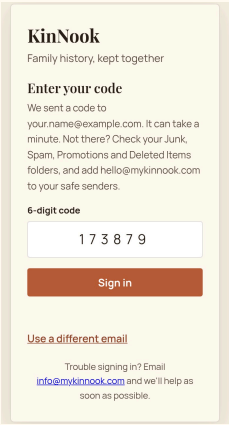

1 Open your link

Tap the link in the message from your relative. Type your email address and tap **Get my code**.

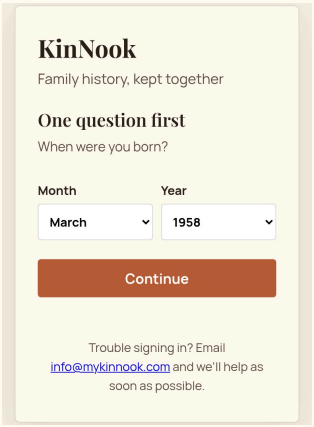

2 Type the code from your email

It comes from **hello@mykinnook.com**. Not there after a minute? Look in Junk or Spam. Tap **Sign in**.

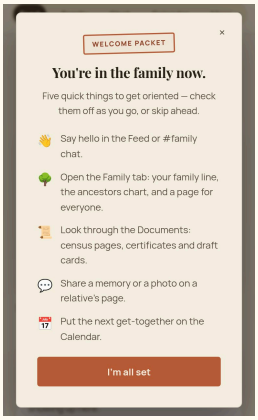

3 Answer one question

Pick the **month and year you were born**, then tap **Continue**. This is only asked once.

4 You're in!

A personal link lets you straight in, with no waiting. Tap **I'm all set** to begin.

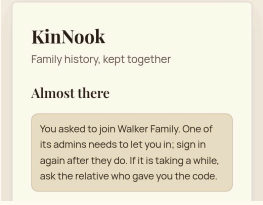

If it asks, pick yourself in the family tree, or ask the relative who invited you to do it.

Next time, just go to **mykinnook.com**.

Good to know

- **You need:** an email address you can open, and a phone, tablet or computer.
- **It's private.** Only relatives your family lets in can see it.
- **No email?** Ask your relative to send you a sign-in link by text or Messenger.
- **Stuck?** Call or text the relative who invited you: _____

Were you given a family code instead of a link? Then do this:

Go to **mykinnook.com**, type your email and tap **Get my code**. Do steps 2 and 3 above. Then type your family code under **Invite code** and tap **Join**. "Almost there" means your request was sent. A family member lets you in, usually the same day. Then open **mykinnook.com** again and you're in.

Your family code: _____

Pictures show a sample email address. Your screen may look slightly different on a computer.
